Cyber Essentials
Readiness Assessment

CYBER ESSENTIALS
Readiness Indicator
TMW RESILIENCE LTD

How to complete this assessment

For each of the 10 statements below, select a score from 1 to 5 using the dropdown on the right.

1 = Not in place at all | 2 = Initial steps taken | 3 = Partially implemented | 4 = Mostly done | 5 = Fully implemented & documented

Open in Adobe Acrobat Reader - your total score and maturity level calculate automatically.

1 FIREWALLS

Q1	Do you have a properly configured firewall on all devices and at your network boundary?	
Q2	Are unnecessary ports, protocols and services blocked or disabled across all devices?	

2 SECURE CONFIGURATION

Q3	Are all default passwords changed on devices, routers and cloud services before use?	
Q4	Is unnecessary software, services and user accounts removed or disabled from all devices?	

3 USER ACCESS CONTROL

Q5	Is admin and privileged access restricted only to staff who specifically need it for their role?	
Q6	Do you use Multi-Factor Authentication (MFA) on all cloud services and remote access connections?	

4 MALWARE PROTECTION

Q7	Is anti-malware software installed, active and up to date on all devices used for work?	
Q8	Is malware protection configured to run automatic, scheduled scans on all devices?	

5 PATCH MANAGEMENT

Q9	Are OS and firmware updates applied to all devices within 14 days of release?	
Q10	Is third-party software kept current, and is unsupported software identified and removed?
